

Matthias Epple studied chemistry at the University of Braunschweig (Germany) and obtained his PhD in 1992. After post-doctoral studies at the University of Washington (Seattle, USA), the Royal Institution (London, UK) and the University of Hamburg (Germany), he was appointed as Associate Professor at the University of Bochum (Germany) in 2000 and as Full Professor at the University of Duisburg-Essen in 2003. His research interests cover ceramic and polymeric biomaterials, nanoparticles for therapeutic application and biomineralization phenomena. From 2010-2013 he was the President of the German Society for Biomaterials (DGBM).
