

H2020 Biomaterials Projects Workshop

5 September, 2017

Room MC3.2, Megaron Athens International Conference Centre, Athens, Greece

PROGRAMME

Chairs: M. Moeller, *DWI - RWTH Aachen University*
C. Kiparissides, *AUTH/CERTH*

10:00-10:25 Engineering Responsive & Biomimetic Hydrogels for Biomedical Therapeutic and Diagnostic Applications (BIOGEL)
M. Moeller, *DWI - RWTH Aachen University*

10:25-10:40 Hyaluronic Acid based Biomimetic Hydrogels for Cartilage Repair
O. Kammona, *CERTH*

10:40-11:00 Nose to Brain Delivery of NG-101 via the Olfactory Region for the Regenerative Treatment of Multiple Sclerosis Using Novel Multifunctional Biomaterials Combined with a Medical Device (N2B-patch)
C. Gruber-Traub, *Fraunhofer IGB*

11:00-11:15 Experimental Validation of N2B-patch Concept
K. Zimmermann, *Institute for Applied Biotechnology - HBC*

11:15-11:30 Recent Advances in Carrier Mediated N2B Delivery of Pharmaceuticals
C. Kiparissides, *AUTH/CERTH*
