

BIOMATERIALS FOR BIOFABRICATION

Organizers

Ferry PW Melchels, Heriot-Watt University, Scotland, f.melchels@hw.ac.uk
Lorenzo Moroni, Maastricht University, Netherlands, l.moroni@maastrichtuniversity.nl

Chair

Ferry PW Melchels, Heriot-Watt University, UK, f.melchels@hw.ac.uk
Aldo Boccaccini, University of Erlangen-Nuremberg, Germany, aldo.boccaccini@fau.de

Theme

The research field of Biofabrication is quickly expanding, opening up many new avenues for Tissue Engineering and Regenerative Medicine. One of the mayor bottlenecks in the progression of the field is the limited availability of purpose-developed biomaterials. This symposium will shed light on the latest developments in this area, by biofabrication experts well-known in the biomaterials community.

Invited Speakers

Aldo Boccaccini, University of Erlangen-Nuremberg, Germany, aldo.boccaccini@fau.de
Peter Dubruel, Ghent University, Belgium, Peter.Dubruel@UGent.be
Cristina Barrias, INEB- Instituto Engenharia Biomédica/ i3S-Instituto Investigação e Inovação em Saúde, Porto, Portugal, cbarrias@ineb.up.pt
